### Doors Ironmongery

#### Glass

Apton glass door ironmongery collection ranges from contemporary to classic in order to cater for all architecture specifications. The pull and lever handle options endorse the dimensional guidance of BS 8300 and meet with Part M requirements, therefore are suitable for use in DDA applications. We are able to offer additional options such as selfclosing hinges and pivot bars for frameless glass doors.

#### Timber

There are a variety of timber ironmongery options available across our range of timber doors. This can help create a safe environment for customers and staff, whilst ensuring that the building remains comprehensive and easy to use.

## Doors Ironmongery

Sapele Walnut

There may be differences between the actual product and these illustrations as a result of the printing process. Physical samples can be provided on request.

### Disability Discrimination Act

The requirements for doors to comply with parts M1 and M2 of the Disability Discrimination Act (DDA), are comprehensive. Door width, access approach, ironmongery, Vision panels, Self-closing mechanism force are all factors to be considered. Please refer to the Apton website (www.apton-partitioning.com), for guidance.

#### Vision Panel

Glazed Vision Panels are used in order to let light into a room. They can also be used for aesthetic reasons or safety. Vision Panels are available in a range of different sizes. They are supplied with security fixings, glass, gaskets and liner in any door thickness. To ensure that all fire rated doors with Vision Panels meet the specified performance, we recommend that all doors are factory glazed in accordance with the BWF Third Party Certifire Scheme.
