

AP104 Open Cell Ceiling System

Technical Data Sheet

Product Information

Tile Materials:
Aluminium

Standard Modules:
50mm, 75mm, 100mm, 150mm

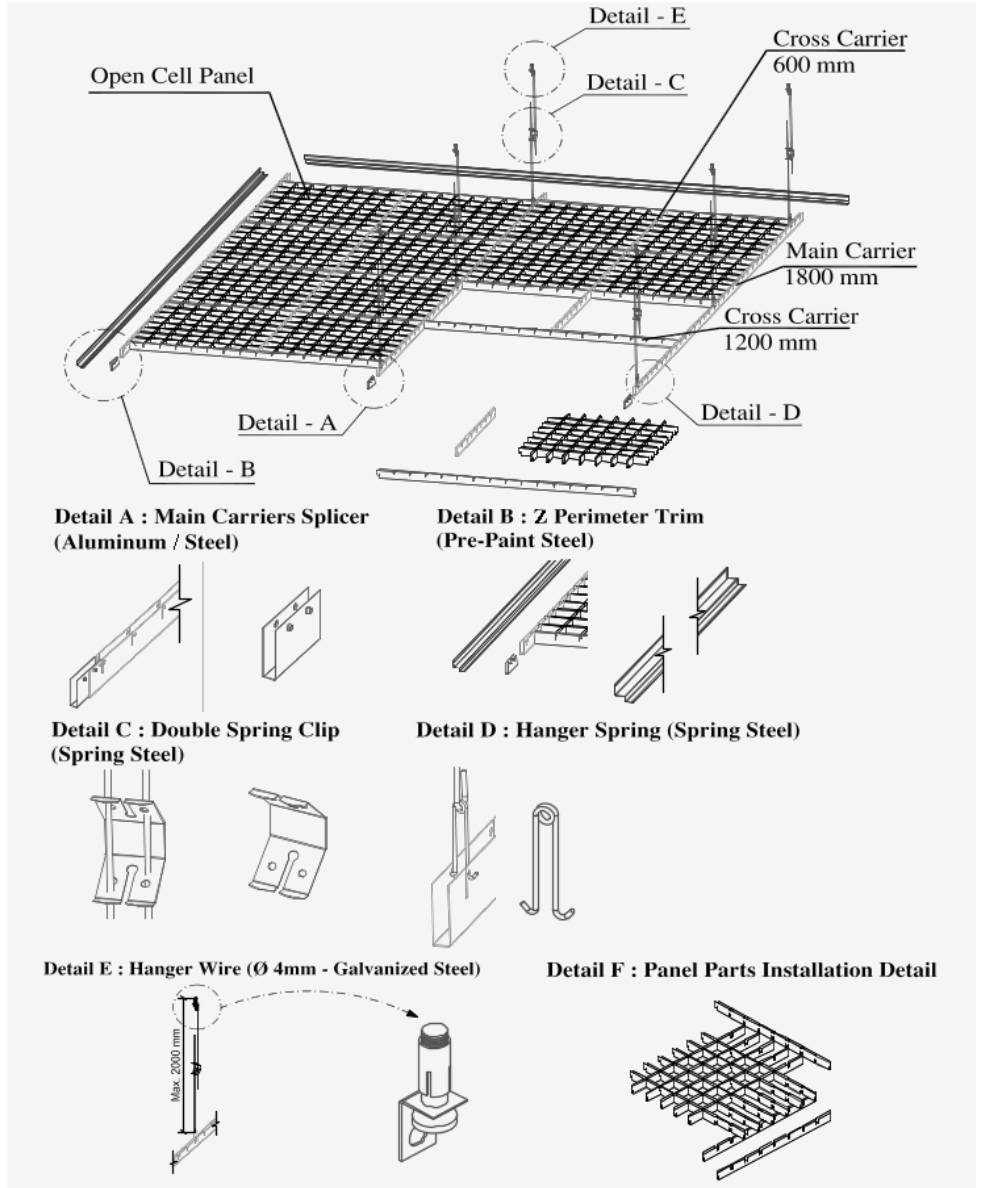

Grid System:
AP 104 T15mm Grid System

Coating:
Powder coated finish

Humidity:
Galvanised 90% RH, Aluminium 100% RH

Fire Performance:
Fire Class: A1 (EN 13501-1)

Perimeter Solution:
Standard perimeter trim in steel and aluminium available

AP 104 Open Cell System is a range of Aluminium open cell ceiling panels that are designed to lay onto a 15mm grid system. Access is gained by simply lifting the panels out of the grid. Open Cell Ceiling blends in with the T grid to give a uniform appearance.

AP104 is designed and manufactured
by Apton Partitioning in Turkey.
